

PEST CONTROL FOR GOVERNMENT PROPERTIES

IT'S EASY TO GET THE BEST

As a GSA-approved government business partner, Orkin is the provider of choice for thousands of federal, state and local government locations across North America. Whether you're a court house, a national park, a seaport or a massive government office complex, here are **five simple reasons** Orkin makes it easy to get the best:

- 1 SECURE** Orkin is bonded, and our Commercial Pest Specialists are screened and randomly drug tested, so you can have complete confidence in The Orkin Man®.
- 2 EXPERIENCED** After more than a century in business, there is almost no environment we haven't worked in, or pest problem we haven't encountered.
- 3 RELIABLE** Scheduled service when you need it, provided by thoroughly trained pest specialists, so the job will be done right. If you need us between service visits, we're there within 24 hours, guaranteed.
- 4 COMPLIANT** From OSHA to IPM, Orkin is already familiar with your compliance requirements and well-versed in all the activities and paperwork required to meet them.
- 5 WELL-DOCUMENTED** Orkin's PowerTrak™ system gives you real-time service data and reports via an online database that you can access anytime, anywhere.

Orkin's A.I.M.® approach to **Integrated Pest Management (IPM)** is a collaborative and ongoing cycle of three critical activities that help keep pests in their place:

ASSESS

First we inspect, identify and evaluate all the underlying reasons pests can infest your property.

IMPLEMENT

Cookie-cutter pest management solutions are ineffective. We work with you to develop a customized solution to suit your unique needs.

MONITOR

Year-round monitoring, documentation and communication help to ensure the ongoing effectiveness of your service.

ORKIN'S QUALITY ASSURANCE PROCESS IS CERTIFIED TO BE IN CONFORMANCE WITH ISO 9001:2008 REQUIREMENTS.

PEST CONTROL FOR GOVERNMENT PROPERTIES

IT'S EASY TO GET THE BEST

In addition to Orkin's standard Integrated Pest Management (IPM) service, Orkin offers a variety of specialized services for government properties using the **latest technologies** and **tailored solutions** for your industry.

Termite Control Orkin's customized termite treatments provide ongoing protection to address any current termite activity and help prevent future infestations.

Bird Control Our bird control program focuses on habitat modification, helping make your facility unattractive to problematic birds.

Mosquito Control Orkin's mosquito service helps suppress current and future mosquito activity around your property.

Rodent Control Pests can enter your property through doors and small cracks. Orkin focuses on sealing gaps to help prevent rodents from entering.

Fly Control Orkin can develop a strategic fly plan specifically for your property, utilizing treatment components such as light traps, baiting, chemical controls, air curtains and exclusion to help manage fly infestations.

Sanitation Orkin Actizyme[®] Floor and Drain Cleaner is a professional cleaning solution that uses naturally occurring enzymes and beneficial bacteria to safely dissolve greasy buildup in pipes, cracks and crevices. Orkin Actizyme helps eliminate grime and odors – and helps prevent the pests that are attracted to them.

Bed Bug Control If you suspect a bed bug infestation, our aggressive bed bug treatment strategy includes a comprehensive inspection of both infested and potentially infested areas and treatment as necessary. Orkin will conduct a follow-up inspection to evaluate the results of the treatment.

Restroom Care A clean facility is less attractive to pests and creates a healthier environment for employees and visitors. Orkin's restroom care portfolio provides three core products designed to help with sanitation – Orkin AutoFresh[®], Orkin AutoFlush[®] and Orkin AutoClean[®].
